WHY CAN WE

Why can we retail goods at wholesale prices?

Such a thing is impossible to any other shoe firm in De catur, but easily possible to us

The great wholesale boot and shoe house of L L Ferris & Co, at Chicago handles goods in such tremendous quan tities that all the goods bought and sold in Decatur during years would be small in comparison. Buying in great quanties at first hands and saving every possible discount this house is able to own its goods at a figure which no retailer ever thinks possible. The retail establishment in Decatur, Ferriss & Lapham shoe store, is supplied direct by the Chicago wholesale house, consequently it always has its goods at a figure which would enable it to sell to all other dealers here at a profit The real truth is that the regulation retail selling price is about the figure which other dealers here pay for their goods. We can give good substantial shoes at a price which other Decatur dealers will charge you for shoddy stuff Our goods are all new and fresh and are coming in all the time. No old shop worn goods. We are J H Byons, theory cards determined to make this retail business larger than in any previous year It is the volume of trade, not the size of the profit that we are after. Come yourself and tell your neighbors to come to us for everything in the shoe line. We will save you big money.
